MedAccred Accredited

MRPC received MedAccred® Injection Molding accreditation for demonstrating our ongoing commitment to quality by satisfying customer requirements and industry specifications.

MRPC, a fully integrated contract manufacturer of medical device assemblies and components, received MedAccred® Injection Molding accreditation in 2022. The distinction is in recognition of the company's ongoing commitment to quality by satisfying customer requirements and industry specifications in the medical market.

This designation, which identifies and verifies compliance to critical manufacturing process requirements, puts MRPC in a group of injection molders that have been endorsed to serve the medical industry.

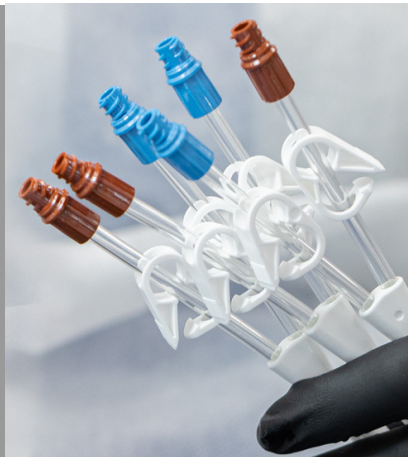

MRPC continues to innovate, and advance our processes by purchasing new, best-in-class equipment, expanding our cleanroom footprint and investing in automation equipment and continuing to hire and train top talent.

“Our commitment to the medical device industry is unwavering, and receiving the MedAccred® Injection Molding accreditation further demonstrates this to our clients, prospective clients and our internal team”.

“The MedAccred® process is extensive, and the MRPC team consistently demonstrates our depth of knowledge, and emphasis on quality, throughout the lifecycle of the medical device manufacturing process”.

Carl Lider, Chief Operating Officer at MRPC

In addition to the MedAccred accreditation, MRPC is ISO 13485 certified and offers FDA Registration (as a contract manufacturer), NSA compliance capabilities and is NSF certified.
